27 trainees including 16 males and 11 females are currently on placement with private companies.

9.3 The Back to Work Programme (BTWP) which was launched in September 2015 is meant for women above 30 years of age to enable them take up or resume employment. The Programme provides for the placement of women in a job for an initial period of one year following which they might be employed. During the placement period, the women will be paid a stipend up to a maximum of Rs 10,575 and will get the opportunity of following training in a registered institution. Employers enrolling women on placement under the Programme will be refunded the training cost up to a maximum of Rs 7,500 per woman as well as the stipend for the placement period.

According to the BTWP secretariat, as at the end of September 2022, 900 employers are registered in the programme, out of which 37% participated actively. 5,959 women are registered in the programme and 1,388 have been placed, out of which 32% in the “*Wholesale and trade*” sector and 27% in the “*Manufacturing*” sector. 721 women have obtained permanent jobs after completion of their placement.

For the month of September 2022, 48 women and 10 employers have registered for the first time, 22 unemployed women were placed.

In addition, to further empower those women, technical courses are currently being dispensed to them by MITD. The courses are fully sponsored by this Ministry and a stipend of Rs 10,575 are paid to them at the end of the course. 516 unemployed women under the BTWP have been trained in Bakery/Pastry, Beauty Therapy, Hairdressing, Care of the Elderly and Disabled, Early Childhood care and Flower Arrangements.

9.4 Government has found that there is a bottleneck regarding pre- registration of engineers at the Council of Registered Professional Engineers (CRPE). The requirements of two years practical training under the supervision of professional engineers could not be entertained for lack of training possibilities for our graduates in engineering.

Government thus announced a special scheme in the Budget Programme 2016-2017, for the placement of trainee engineers.

The objective of the TES is to enable Graduates in engineering to qualify for registration with the Council of Registered Professional Engineers of Mauritius and to operate as full-fledged engineers.

The requirements for enlistment of trainees for the Trainee Engineer Scheme: Degree holders in engineering plus eligibility certificate stage 1 from the Council of Registered Professional Engineer.

As at 30 September 2022, the number of applications received for the scheme was 1,483 (1,102 males and 381 females). The number of placements effected in the public sector was 475 (375 males and 100 females) and in the private sector was 336 (255 males and 81 females). Most placements were made in the following fields: 47% in “*Civil Engineering*” and 22% in “*Mechanical Engineering*” and 15% in “*Electrical and Electronics Engineering*”.

19 employers of the public sector and 57 of the private sector are participating in the scheme as at 30 September 2022; while the number of placements for the month of September 2022 stood at 7 trainees including 3 male trainees in the public sector and 4 trainees (3 males and 1 females) in the private sector.

- Conduct career related activities in schools – assisting students in their choice of subjects, training/employment and educational opportunities, thereby helping them in their career planning.
- Participate in and organize career fairs.
- Certify copies of educational certificates as “True Copy”.

The table below provides for the activities conducted during the month of September 2022

Activities	Number
Visit in Enterprises	5
Guidance & Counselling to the general public and students in schools	2
Certification of copies of educational certificates as "True Copy"	549

11. Job Placement

11.1 Placement is made according to the job requirements of employers. For the month of September 2022, 3,422 vacancies have been processed by the Employment Information Centres and 5,078 registrants were referred for employment by the latter. Out of the 5,078 (2,323 males and 2,755 females) referred jobseekers, 66 declined job offers, 734 failed to report to employers and 3,238 were not selected. There were 259 registrants who reported that they have been employed and the result of referral for 737 remaining applicants was not yet known. For the month of September 2022, placement has been effected for about 8% of the vacancies processed (Table 27).

Some vacancies for the month of August 2022 have been processed during the month of September 2022 leading to 44 additional placements being made.

As regards placement in the public sector, 56 vacancies have been reported for which 276 jobseekers have been referred.

Furthermore, 25 persons registered under the “*Workfare Programme*” have been placed, 25 persons through the TV programme “*Magazine de L’Emploi et des Metiers*”, 2 persons through the *Job Management system*, 45 persons through the “*Youth Employment Programme*”, 22 persons through the “*Back to Work Programme*”, 1 person through the “*Dual Training Programme*” and 7 persons through the “*Trainee Engineer Scheme*”. Thus, the total number of placements, for the month of September 2022, amounted to 430 (Table 28) and as shown below.

11.2 The disparity between the number of vacancies reported and the number of persons placed can be explained by unwillingness of job seekers to accept job offers and also by some criteria set by the employers. Some jobseekers refused job offers because of the conditions of work e.g. low salary, overtime or night duty. Most of the jobseekers refused the jobs offered to them as they are looking for public sector jobs. For some vacancies, no suitable candidates were available.

In some cases, employers were not satisfied with referred candidates and consequently the vacancies were filled by the employers themselves. Some candidates were not selected by employers as according to the latter they were not suitable for the work or lack previous experience. Employers were not willing to offer higher salaries, thus the jobseekers who were looking for a better pay were not selected by the employers.

11.3 A breakdown of placements by industrial group shows that the majority of the placements made were in the “*Wholesale & Retail Trade; repair of motor vehicles, motorcycles & personal and household goods*” sector (112), “*Real estate, renting and business services*” sector (55) and “*Manufacturing*” sector (49). The remaining placements were effected in companies engaged in other activities (Table 28).
