The Programme provides for the placement of women in a job for an initial period of one year following which they might be employed. During the placement period, the women will be paid a stipend of Rs 5,000 and will get the opportunity of following training in a registered institution. Employers enrolling women on placement under the Programme will be refunded the training cost up to a maximum of Rs 7,500 per woman as well as the stipend for the placement period.

According to the BTWP secretariat, as at the end of June 2020, 737 employers are registered in the programme, out of which 37% participated actively. 4,638 women are registered in the programme and 1,228 have been placed, out of which 34% in the “Wholesale and trade” sector and 22% in the “Manufacturing” sector.

For the month of June 2020, 43 women and 3 employers have registered for the first time, while 6 women has been placed.

In addition, to further empower those women, technical courses are currently being dispensed to them by MITD. The courses are fully sponsored by this Ministry and a stipend of Rs 6,000 are paid to them at the end of the course. As at date, some 175 unemployed women under the BTWP have been trained in Bakery/Pastry, Beauty Therapy, Hairdressing, Care of the Elderly and Disabled and Early Childhood care.

9.4 Government has found that there is a bottleneck regarding pre- registration of engineers at the Council of Registered Professional Engineers (CRPE). The requirements of two years practical

training under the supervision of professional engineers could not be entertained for lack of training possibilities for our graduates in engineering.

Government thus announced a special scheme in the Budget Programme 2016-2017, for the placement of trainee engineers.

The objective of the TES is to enable Graduates in engineering to qualify for registration with the Council of Registered Professional Engineers of Mauritius and to operate as full-fledged engineers.

The requirements for enlistment of trainees for the Trainee Engineer Scheme: Degree holders in engineering plus eligibility certificate stage 1 from the Council of Registered Professional Engineer.

As at 30 June 2020, the number of applications received for the scheme was 1,196 (884 males and 312 females). The number of placements effected in the public sector was 392 (311 males and 81 females) and in the private sector was 197 (147 males and 50 females). Most placements were made in the following fields: 48% in Civil Engineering and 21% in Mechanical Engineering.

27 employers of the public sector and 33 of the private sector are participating in the scheme as at 30 June 2020; while the number of placements for the month of June 2020 stood at 18 trainees (14 males and 4 females).

For the month of June 2020, 2,035 vacancies have been processed by the Employment Information Centres and 2,814 registrants were referred for employment by the latter. Out of the 2,814 (1,380 males and 1,434 females) referred jobseekers, 254 declined job offers, 222 failed to report to employers and 1,876 were not selected. There were 132 registrants who reported that they have been employed and the result of referral for 338 remaining applicants was not yet known. For the month of June 2020, placement has been effected for about 6% of the vacancies processed (Table 27).

Some vacancies from March to May 2020 have been processed during the month of June 2020 leading to 10 additional placement being made.

As regards placement in the public sector, 29 persons have been placed for previous vacancies.

Furthermore, 79 persons registered under the Workfare Programme have been placed, 24 persons through the TV programme “Magazine de L’Emploi et des Metiers”, 1 person through the Job

the total of 75 new work permits issued, 47 were allocated to Bangladeshi workers, 11 to Indian workers, 9 to Malagasy workers and 6 to Sri Lankan workers (Tables 29 & 31).

The number of work permits renewed for the month of June 2020 amounted to 481 (290 males and 191 females) out of which 309 were for the “Manufacturing” sector (Table 30). 10.2 The disparity between the number of vacancies reported and the number of persons placed can be explained by unwillingness of job seekers to accept job offers and also by some criteria set by the employers. Some jobseekers refused job offers because of the conditions of work e.g. low salary, overtime or night duty. Most of the jobseekers refused the jobs offered to them as they are looking for public sector jobs. For some vacancies no suitable candidates were available.

In some cases, employers were not satisfied with referred candidates and consequently the vacancies were filled by the employers themselves. Some candidates were not selected by employers as according to the latter they were not suitable for the work or lack previous experience. Employers were not willing to offer higher salaries, thus the jobseekers who were looking for a better pay were not selected by the employers.

10.3 A breakdown of placements by industrial group shows that the majority of the placements made by EICs were in the “Manufacturing” sector (38) and “Wholesale and retail trade” sector (37). The remaining placements were effected in companies engaged in other activities (Table 28).

11. Work Permits

For the month of June 2020, the number of new work permits issued was 75 (61 males and 14 females). The majority of the new work permits issued was for the “Manufacturing” sector (68). Out of
